

About Us

Eli, the Hair Doctor, has over 14 years of cosmetology and barbering experience. After working years in the salon industry, Eli went into his own business to help clients who, for many reasons, found it more convenient to have their cosmetology needs taken care of outside of the salon.

Why You Need Us

The most common reasons why the Hair Doctor is a GREAT opportunity for many are:

- You need a last minute hair appointment or an appointment after the salon closes
- We provide quality work at affordable prices
- Rising gas prices - so we travel to YOU
- You have no available transportation or are homebound
- You have no daycare or babysitter
- It's too much of a hassle to bring your children to the salon
- You've messed up your hair and you need a hair fix
- You want a makeover - We'll create a new You
- You're too busy to make it to the salon
- You got stuck late at the office or your place of business
- You can be pampered in your own home
- We have group rates and family discounts
- We do hair parties and wedding parties for the bride, groom & guests

But whatever the reason, you'll want the Hair Doctor to style your next do!
